“49111. Relationship to and effect of other laws.

“49112. Separability and effect of judicial order.

21 “**§ 49101. Findings**

22 “Congress finds that—

23 “(1) the 2 federally owned airports in the metropolitan area of the
 24 District of Columbia constitute an important and growing part of the
 25 commerce, transportation, and economic patterns of Virginia, the Dis-
 26 trict of Columbia, and the surrounding region;

27 “(2) Baltimore/Washington International Airport, owned and oper-
 28 ated by Maryland, is an air transportation facility that provides service
 29 to the greater Metropolitan Washington region together with the 2 fed-
 30 erally owned airports, and timely Federal-aid grants to Baltimore/
 31 Washington International Airport will provide additional capacity to

1 meet the growing air traffic needs and to compete with other airports
2 on a fair basis;

3 “(3) the United States Government has a continuing but limited in-
4 terest in the operation of the 2 federally owned airports, which serve
5 the travel and cargo needs of the entire Metropolitan Washington re-
6 gion as well as the District of Columbia as the national seat of govern-
7 ment;

8 “(4) operation of the Metropolitan Washington Airports by an inde-
9 pendent local authority will facilitate timely improvements at both air-
10 ports to meet the growing demand of interstate air transportation occa-
11 sioned by the Airline Deregulation Act of 1978 (Public Law 95–504;
12 92 Stat. 1705);

13 “(5) all other major air carrier airports in the United States are op-
14 erated by public entities at the State, regional, or local level;

15 “(6) any change in status of the 2 airports must take into account
16 the interest of nearby communities, the traveling public, air carriers,
17 general aviation, airport employees, and other interested groups, as well
18 as the interests of the United States Government and State govern-
19 ments involved;

20 “(7) in recognition of a perceived limited need for a Federal role in
21 the management of these airports and the growing local interest, the
22 Secretary of Transportation has recommended a transfer of authority
23 from the Federal to the local/State level that is consistent with the
24 management of major airports elsewhere in the United States;

25 “(8) an operating authority with representation from local jurisdic-
26 tions, similar to authorities at all major airports in the United States,
27 will improve communications with local officials and concerned resi-
28 dents regarding noise at the Metropolitan Washington Airports;

29 “(9) a commission of congressional, State, and local officials and
30 aviation representatives has recommended to the Secretary that trans-
31 fer of the federally owned airports be as a unit to an independent au-
32 thority to be created by Virginia and the District of Columbia; and

33 “(10) the Federal interest in these airports can be provided through
34 a lease mechanism which provides for local control and operation.

35 **“§ 49102. Purpose**

36 “(a) GENERAL.—The purpose of this chapter is to authorize the transfer
37 of operating responsibility under long-term lease of the 2 Metropolitan
38 Washington Airport properties as a unit, including access highways and
39 other related facilities, to a properly constituted independent airport author-
40 ity created by Virginia and the District of Columbia, in order to achieve

1 local control, management, operation, and development of these important
2 transportation assets.

3 “(b) INCLUSION OF BALTIMORE/WASHINGTON INTERNATIONAL AIRPORT
4 NOT PRECLUDED.—This chapter does not prohibit the Airports Authority
5 and Maryland from making an agreement to make Baltimore/Washington
6 International Airport part of a regional airports authority, subject to terms
7 agreed to by the Airports Authority, the Secretary of Transportation, Vir-
8 ginia, the District of Columbia, and Maryland.

9 **“§ 49103. Definitions**

28 “(5)(A) Except as provided in subparagraph (B) of this paragraph,
29 all regulations of the Metropolitan Washington Airports (14 C.F.R.

32 Authority under procedures of the Airports Authority.

33 “(B) Sections 159.59(a) and 159.191 of title 14, Code of Federal

The Airports Authority shall assume responsibility for the Federal Aviation Administration’s Master Plans for the Metropolitan Washington Airports.

“(B) The procedure for disputes resolution contained in any contract entered into on behalf of the United States Government before June 7, 1987, continues to govern the performance of the contract unless otherwise agreed to by the parties to the contract. Claims for monetary damages founded in tort, by or against the Government as the owner and operator of the Metropolitan Washington Airports, arising before June 7, 1987, shall be adjudicated as if the lease had not been entered into.

All records and property of the Airports Authority shall remain in possession and custody of the Airports Authority.

“(8) The Airports Authority shall develop a code of ethics and financial disclosure to ensure the integrity of all decisions made by its board of directors and employees. The code shall include standards by which members of the board will decide, for purposes of section 49106(d) of

1 this title, what constitutes a substantial financial interest and the cir-

 3 tion may be granted.

4 “(9) A landing fee imposed for operating an aircraft or revenues de-

14 “(10) The Airports Authority shall compute the fees and charges for
 15 landing general aviation aircraft at the Metropolitan Washington Air-
